

Come to Johnson the 4th

Behind all Business

activities the Bank Account looms up as the guiding light to prosperity. This does not mean that all one need do to attain success is to open a bank account. Of course, a check book is a mighty handy thing and is absolutely necessary in every well ordered business. But it is the privilege and prestige which come with a bank account that are the important factors for the ambitious business man.

Your business respectfully solicited.

The Day That Never Dies

No day of the Christian calendar is on a par with that of Christmas, but next to it the Fourth of July is the one most indelibly fixed in the minds of all American people.

It signifies liberty, and liberty is our most cherished inheritance, bequeathed to us by our sturdy forefathers and maintained by our own strength and determination.

July 4th is a great day for flag waving, speech making and general jollification. It is our method of signifying our undiminished admiration of and gratitude to the heroes of 1776, who won imperishable fame by freeing our struggling colonies from the oppressive rule of a foreign king.

Great events of history become dim in the minds of men as time flies on, but Independence Day remains ever green in memory and the deeds of its creators never die.

Attention, Americans!

Right hand, Salute!

Volume Savings Permit Greater Value

There are hundreds of parts in a motor car. Many companies buy all, some makers build a few, of the parts that go to make up a complete motor car. For every part they buy, a partsmaker's profit must be included in the final price.

Studebaker builds every vital part. Motors, bodies, axles, transmissions, frames, tops and other parts are designed and manufactured completely from raw material to finished product in

Studebaker plants, under Studebaker control and inspection.

The savings, because of tremendous volume, give the buyer extraordinary value.

Complete manufacture also explains the uniform high quality that you get in a Studebaker car, whether it is a Light-Six, a Special-Six or a Big-Six.

And uniform high quality has made Studebaker cars known everywhere for their dependable performance in owners' use.
